## Why Omega?

Omega's reputation for performing accurate, timely and cost effective testing, coupled with superior client service has positioned Omega as the leader in the advanced specimen testing industry. The following are some of the reasons our clients have chosen to partner with Omega Laboratories:

- ▶ Internationally Recognized Laboratory Accreditations
- ▶ Industry Leading Turnaround Times
- ▶ Innovative Technology Solutions
- ▶ Superior Client Service

## OUR SERVICES

Omega is committed to improving the health and safety of organizations by providing innovative testing solutions. Omega's clients in government agencies, workplace and healthcare rely on quality sample analysis for critical testing needs. This includes police and military, transportation and logistics, energy development and distribution, as well as clinical and recovery providers.

### Hair Drug Testing

Hair testing is the best screening method for safety-sensitive and other high risk situations. Hair detects lifestyle choices over several months of history.

### Oral Fluid Drug Testing

Oral fluid testing shows recent usage via a non-invasive collection process. As such oral fluid is rapidly becoming the pre-employment test method of choice for retail and hospitality groups.

### Urine Drug Testing

Omega Labs is now SAMHSA accredited for our Urine program in Ontario, Canada. This prestigious recognition underlines our commitment to quality and accuracy. Our Urine testing services provide a comprehensive range of panels, allowing you to detect recent usage of both drugs and alcohol. With Omega Labs, you can count on precise results and a higher standard of testing.

### Instant Drug Testing

Instant/point of care test kits allow clients to complete initial screening in the field that is supported by Omega's confirmation services.

## Technology Solutions

Omega's technology solutions allow our clients to streamline processes, ensure accuracy, accelerate turnaround times, and secure data when needed most. These tools are already in use by multinational companies that need to meet stringent regional data and accreditation standards.

### Online Custody & Control Form

Enables clients to track and manage both instant and laboratory-based test results. oCCF generates results that enhance program management, compliance and billing.

### Secure Data Reporting Options

Clients can access data globally via Omega's Secure Results Extranet as well as via flexible data integration solutions with third-party packages.

### Multi-Language Reporting

Omega offers multi-language reporting in 6+ languages including Arabic and Simplified Chinese.
